

NITIN CHAUHAN

Software Developer | Sharepoint • React • Node.js • AWS • Microsoft 365

Noida, India | +91 8285510025 | dev.nitin2024@gmail.com | [linkedin.com/in/nitin](https://www.linkedin.com/in/nitin) | github.com/supernitin06

SUMMARY

Full Stack Developer with 1.5+ years building secure, scalable SaaS and enterprise platforms. Expert in Sharepoint Environment , React, Node.js, AWS, and Microsoft 365. Delivered 30%+ performance improvements through optimization and API design.

TECHNICAL SKILLS

Microsoft 365: SPFx, SharePoint Online, Power Automate, PnP PowerShell, CSOM, Azure

Languages: JavaScript, TypeScript, Python, SQL | **Frontend:** React.js, Next.js, Tailwind CSS

Backend & APIs: Node.js, Express.js, REST APIs, Swagger, JWT, OAuth2

Databases & Caching: PostgreSQL, MongoDB, Supabase, Redis

Cloud & DevOps: AWS (EC2, RDS, S3), Docker, Git

PROFESSIONAL EXPERIENCE

Software Developer | Smalsus Infolab Pvt. Ltd. | Noida | Apr 2025 – Present

- Designed and developed enterprise SharePoint solutions using SPFx framework with React and TypeScript for Microsoft 365 environments
- Built AI-enabled interactive web parts and automated Power Automate workflows for business process automation and approvals
- Configured site permissions and managed access control policies for SharePoint environments
- Leveraged PnP PowerShell, CSOM, and Azure services for site provisioning, migration, and advanced customization

Full Stack Developer | LeadsConnect Services Pvt. Ltd. | Noida | Oct 2025 – Apr 2026

- Developed multi-tenant SaaS applications with RBAC, JWT/OAuth2 authentication, and Redis-based session management
- Improved API performance by 30% through caching, query optimization, and lazy loading implementations
- Integrated Razorpay payment gateway and deployed scalable solutions on AWS (EC2, RDS); mentored junior developers

Software Developer | Perfect Kode Software Technologies | Noida | Sept 2024 – Oct 2025

- Built full-stack web applications using Next.js, React.js, FastAPI, and Laravel across diverse client projects
- Created responsive UI components using Tailwind CSS; integrated third-party APIs and optimized performance
- Delivered client-focused solutions with improved user experience and application stability

KEY PROJECTS

MultiTenant Management System (MTMS) | github.com/supernitin06/Multitenant

- Architected and deployed production-grade multi-tenant SaaS platform managing diverse business types from a single codebase using Node.js, React.js, and PostgreSQL with advanced data isolation
- Implemented comprehensive Role-Based Access Control (RBAC) system, subscription logic with tiered pricing, and secure tenant isolation ensuring data privacy and multi-client support
- Developed and integrated secure REST APIs with JWT authentication, implemented Razor pay payment system for recurring subscriptions, and Redis caching for real-time features and performance
- Deployed on AWS infrastructure (EC2, RDS) creating a highly scalable and reliable system capable of supporting multiple enterprise clients simultaneously with 99.9% uptime

SDV Connect – University Collaboration Platform

- Developed a centralized university platform integrating academic and administrative services for students, mentors, and administrators.
- Implemented **Role-Based Access Control (RBAC)** to manage secure, role-specific access and workflows.
- Built **real-time booking and collaboration features** to improve resource utilization and communication.

EDUCATION

Bachelor of Technology in Computer Science | Amity University Noida , India

2020 – 2024 | **Top 10% of Batch**
